Village Jubilee Olympicnic:

The Village Jubilee Olympicnic on Monday, 4th June proved to be a great success. The weather held as young and old from the community came to the Village Hall for an afternoon of fun and games - of the traditional kind!

Lots of winners on the rostrum...

With world-class celebrities in attendance, weeks of planning and preparation came together flawlessly. Thanks go to Michael Horne for all his work both leading up to and on the day, and also especially to Katy Buckingham for doing such a great job with the children's sports.

Thanks also to the many other people who helped bring the event together, and of course to the very many people who attended.

ANYONE FOR A MEDAL?

I was very impressed with the medals donated by the village organisations at the Jubilee Olympicnic and would like to get some for the grand children. Unfortunately there is a minimum order of 10 and I only need 3. These are still available at £3.99 plus postage. Is there anyone who could help me make up the order?

Update from the Awbridge (and surrounding parishes) Oil Group

Things have moved on since we last wrote in the Acorn about the growing oil consortium covering the Awbridge, Dunbridge & Mottisfont areas.

The Group now has around 80 members, and the last order in April totalled 33,000 litres. That's a lot of oil! With this amount, we expect to achieve a 3-4p discount for those who normally order 1500 litres or more, and as much as 9p for those who would normally order smaller quantities. So more importantly, that's a lot of money saved!

We place collective oil orders four times a year, with the next one due in mid July. The minimum order each time is 500 litres. Members don't have to place an order each time – the trick is synchronising to fit in with this cycle in order to take advantage of the discounts. It usually takes the first couple of orders to get in sync, but it's worth juggling quantities to fit in (e.g. some new members ordered the minimum amount in April so they could get in sync for a bigger order in July when the prices are lower).

Prices have reduced slightly with the world price of oil at its lowest for some time and with heating prices having dropped (by not much) over the last 2 months - so now might be a good time to stock up.

Whether you're an existing member or want to join and place an order for the first time now, please let us know by **Friday 6th July** if you want a delivery in July.

Please contact:

- ▶ John Jones if you live in the Awbridge area (tel. 341235; bjcool@aol.com)
- ▶ Helen Bowers if you live in the Dunbridge & Mottisfont area (tel 342204; helenbowers1@btinternet.com)

For new members, we'll then send you the outline of what's involved and how the group works, including payment details (you pay the supplier direct on

PARISH COUNCIL

At our Annual General Meeting in May, John Millns was elected as Chairman, and Jeff Channing as Vice Chairman.

The council would like to thank Melissa Juniper, the Play Strategy Coordinator and Early Years Physical Activity Leader, for the £200 Hampshire County Council grant towards the children's Jubilee celebrations. We hope you all enjoyed the day!

The state of the road edge near Mottisfont and Dunbridge station was discussed following complaints from residents. Contractors' vehicles have churned up the verge and the Parish Council have decided to write to Hampshire County Council to make delivery of a proper footpath linking the station to Barley Hill a priority.

Cllr. Simmonds has been on a tour of the parish with Hampshire County Council and agreed a list of all the potholes which need repair.

The parish lengthsman has started working in the parish, under the supervision of Cllr. Simmonds. The Dunbridge nameplate along Lockerley Road has been

moved to protect it from further damage from hedge-cutting machinery. It has been re-positioned outside the property known as Dunerley, which was the only suitable location. The Spearywell Road ditch has also been cleared.

The council has reported some problems with a number of footpaths in the parish relating to Rights of Way. These include footpath 4 from Barley Hill to Awbridge, which has been impassable due to the oil seed rape, the removal of hedgerows along footpath 1 from the Mill Arms to Awbridge, and a missing finger post on footpath 10 from Hatt Hill to Lockerley.

Remember to register your support for faster broadband in the area by completing the online form at <https://www3.hants.gov.uk/broadband/broadbandsignup.htm>.

Dates of future meetings: 11th July and 12th September. Everyone welcome.

Clerk, 340130

Business Scams: Sign up for alerts

Unfortunately, in these tough economic times, some unscrupulous businesses are employing devious techniques to squeeze money out of businesses. Hampshire Trading Standards is urging small businesses to be on their guard and to sign up for alerts to the latest scam techniques.

One of the most common fraudulent methods is an advertising scam. A recent case involved a small B&B. After paying what they thought was a one-off payment for an advert in an online directory, the owners were harassed and threatened by the advertising company and a debt collection agency for "missed payments" amounting to around £1,500. The calls were so threatening that the B&B owners called the Police.

The B&B had never received any confirmation of the contract and were never provided with terms and conditions. Luckily in the circumstances, the alleged

debt could reasonably be disputed.

The problem is widespread and in just three months Hampshire Trading Standards has received 24 similar complaints.

Hampshire Trading Standards is advising businesses to be on their guard, to check all invoices carefully, especially unexpected ones, and if targeted by unsolicited telesales calls, to just hang up.

Hampshire businesses are also able to sign up to receive electronic alerts of scams from Trading Standards by visiting their website at <http://www3.hants.gov.uk/tradingstandards/tradingstandards-businessadvice.htm>.

Should you be the target of a business scam, please let Trading Standards know by calling 01962 833620.

receipt of your delivery).

Two final thoughts!

It has been suggested that a regular Acorn column on 'Green Top Tips' would be a good idea (thanks, Ashok!). Do you have energy saving advice and ideas too good to keep to yourself? If so, and you'd like to see others, please let Helen and Ashok know on 342204 or email helenbowers1@btinternet.com. Watch this space.....!

Would Oil Group members be interested in meeting to look at ways of saving/reducing oil consumption? Please let John know if you're interested on 341235 or email bjjcool@aol.com.

If enough people show interest, we'll set something up in the near future – and definitely before the winter sets in (and maybe before that, if it doesn't stop raining soon...brrrr)

MOTTISFONT & DUNBRIDGE W.I.

Our June meeting started with a fascinating and informative talk on Fair Trade at the Fairground.

Mrs Helen Carter has a Fair Trade shop at the Fairground near Andover. She informed us about the products she has to sell and how by selling them in this country and many others, the developing world is becoming more sustainable. She also brought with her some examples of the things that are being created by recycling many different products from plastic bags to redundant fridges.

Following her visit we are hoping to make a visit to the Fairground to include a light lunch and time for shopping.

Next month we are having an evening ramble. We will be taking the train to Romsey from Dunbridge and will walk home. We are also visiting Houghton Lodge instead of our usual meeting followed by a visit to the White Hart in Stockbridge.

Please do come along to any of our meetings at the Village Hall in Mottisfont every second Tuesday of the month at 8.00pm. You will be given a very warm welcome.

IceHouseColourSpace - a new art installation by Ken Devine

Visitors peering into Mottisfont's underground ice house in the North Paddock (to the north of the stableblock) are in for a surprise. In the age before electric refrigeration, this deep insulated pit was filled during winter with compressed snow and ice for use during warmer months. Now it's been transformed by light and colour, and by the imagination of artist Ken Devine.

IceHouseColourSpace is a digital installation, an adaptation of The Haphazard Colour Machine, a random journey through a three dimensional environment of colour. It doesn't have a specific meaning; it just creates a beautiful, meditative space. Come and see what you think of it.

Also on show are three sets of prints in the loose boxes of the stableblock. These explore colour in more personal ways, including material from The Analytical Colour Engine, which creates spectrum maps of the associations and meanings that people have attributed to different colours.

This work is part of an ongoing project entitled Social Spectrum

AN INTRODUCTION TO HATT FARM

We were asked recently if we would make an occasional contribution to the Acorn, writing about Hatt Farm, farming in general, and the Mottisfont Estate.

We, that is my sons Gareth and Tudor and myself, John, farm Hatt Farm in partnership. We have now been at Hatt Farm for 26 years (incredible!), coming from Leicestershire where we had a smaller farm.

The broad picture at Hatt Farm is that we farm as tenants of the National Trust, Hatt Farm being part of the Mottisfont Estate. A considerable amount of the land in this country is farmed under a tenant/landlord relationship; probably over half.

Hatt Farm consists of 700 acres, of which 400 acres are arable, ground crops like wheat, oats, oil seed rape, in rotation. 300 acres are grassland, on which we support around 120 beef cattle, grazing them during spring, summer and early autumn, and housing them from late autumn through winter and early spring. During this time their principal diet is silage and hay conserved from the summer. This is balanced by some cereals, protein and minerals.

The cattle are mainly heifers (females) bought in at 6-9 months old. These are usually on the farm for around eighteen months and are then sold, some going to other farms for breeding or finishing. Others are sold as fat cattle. This all depends on the state of the market at the time, and the condition of the animals.

These cattle are cross-bred, which gives hybrid vigour, their dams being dairy cattle (e.g. Friesian or Holstein) and their sires beef bulls (e.g. Aberdeen Angus, Limousin, Charolais, Simmental, Hereford).

We have recently started to establish a suckler herd of North Devon Ruby Red cattle which some of you may have noticed (more on these another time).

The rain in April and May was most welcome. An old saying is "Cold, wet May is good for corn hay". Unfortunately it has carried on too long, and we are now hoping for some more settled, warmer weather to harvest the crops and enable us to get on with silage (only a little done) and hay making.

John Jenkins and family.

Paving stones Any unwanted paving stones, broken or whole, would be very welcome. Please call 368346.

Dear Friends,

On 2nd August, 1828, the Rev'd. Marmaduke Sealey was licensed as Stipendiary Curate to Broughton cum Bossington on a stipend of some one hundred pounds per year plus surplice fees (marriage churching and burial fees), plus glebe land of some £36. He worked as the Curate to the Rector who held the head tithe of Broughton. Marmaduke served in Broughton for 28 years and is buried in St. Mary's Church, Broughton. His plaque is near the vestry door in the sanctuary.

In 1828, the Rector, besides his clerical duties and collecting the head tithe (10% of the cereal crops grown in the parishes) and fees for glebe land (no need for fund raising then), was also the registrar of births, deaths and marriages and sat as a Magistrate. The Rector could retire from his duties and leave his Curate in charge as he went and painted in Venice or studied butterflies! Ummm, interesting thoughts!

Today life is much different as we have a widespread Benefice, not a single parish. Curates no longer stay for 28 years but come to train and minister for four years until they have their own parishes. Therefore it is a great delight that we do have a Curate coming into the Benefice, the first since The Rev'd. Marmaduke Sealey. The Rev'd. Gillian Nobes will be moving into Mottisfont as the Benefice Curate on 21st June. Gina and I have often prayed that God would bless us with a curate

for these parishes, and I am absolutely delighted that Gill, with the support and blessing of the Diocese, is coming to serve among us and that she will be ordained in Winchester Cathedral on 1st July 2012 by The Bishop of Winchester.

Gill will be moving into Mottisfont on 21st June and once she is ordained we will provide her phone number as part of the ministry team.

Please would as many people as possible come to the welcome Songs of Praise Service we are holding on the 1st July at 6.00pm in St Mary's Broughton? The service will be followed by refreshments and a chance to say hello to Gill and to her husband Andy.

We are so fortunate to be receiving such a faithful, committed and gifted person, and Gill is blessed in coming into our beautiful widespread and challenging Benefice.

Please pray for Gill as she prepares to come and serve among us, and may God richly bless her ministry in these parishes.

Wind in the Willows & Worn to be Wild 14 July to 16 September

This summer, visitors to Mottisfont can discover the original, captivating illustrations to the children's classic The Wind in the Willows, as well as extraordinary costumes inspired by history and wildlife, in two stunning exhibitions - Wind in the Willows and Worn to be Wild.

In the Gallery you'll find 32 hand-coloured, rarely exhibited illustrations by E.H. Shepard for Kenneth Grahame's enchanting tale The Wind in the Willows. This book was an expression of the author's sheer delight at time spent outdoors by the river, in contrast to his job at the Bank of England. It's about freedom, leisure and the restorative power of both friendship and nature. Shepard's illustrations have brought this charming story to life for generations of readers, and their spontaneous style, freshness of colour and humorous characterisation never fail to delight. The theme of nature and wild life continues with an exciting Wind in the Willows-inspired trail for families through the wilder side of Mottisfont – the grounds, meadows, woods and riverside – with intriguing clues along the way.

Visitors can also enjoy a display of contemporary costumes inspired by nature. The exhibition Worn to be Wild presents spectacular frocks by dress designer and textile artist Kate Plumtree. Her inspiration is the unusual combination of wild British birds and mammals and the evolution of period dress. From a medieval deer to a contemporary hedgehog, each costume has been carefully designed and constructed by observing the movement, character, habitat and style of each creature. The display includes an elegant 18th-century swan, a dramatic 1930s golden eagle, a sultry Victorian fox and many other stunning creations. It also includes location photography and portfolios by the artist, and tactile fabric sample boards for each costume. There are even wildlife costumes for children to try on.

BRAISED LETTUCE WITH SLOW-ROASTED CHICKEN

Lettuce, which is a good source of vitamin A and potassium, is not just for a salad. You'll be amazed how tasty cooked lettuce can be!

This recipe serves four.

Ingredients:

4 large chicken legs
150ml of dry white wine
1 teaspoon of dried thyme
A little salt and pepper
4 Gem lettuce (or small Romaine)
500ml of chicken stock
1 tablespoonful of olive oil
4 slices of streaky bacon (about 180-200g), cut widthways into strips
1 small onion, peeled and finely diced
Salt & freshly milled black pepper
Olive oil

Ian Wooldridge,
Head Chef
at Kimbridge
Farm

How to make it:

Place the chicken into a roasting dish and add the wine. Next, sprinkle over the dried thyme and season with a little salt and pepper. Cover the roasting dish with baking foil, being careful not to touch the foil against the chicken. Roast in the oven at 180°C (160°C fan)/Gas Mark 4 for 2 hours.

Remove the foil and return the chicken to the oven for a further 45 minutes. When cooked, set aside and cover again with foil to keep warm.

Meanwhile, thoroughly wash the gem lettuce and remove and discard any outer leaves that may not be in good condition. Place these snugly into another roasting dish and then pour in the chicken stock.

Now heat the olive oil in a frying pan and add the bacon. Fry the bacon until it becomes crispy (about 5 minutes) and remove it to a dish using a slotted spoon. To the remaining fat, add the onions. Gently cook the onions until they become soft and translucent (about 3-4 minutes).

Mix the cooked bacon and onions together and sprinkle over the Gem lettuce. Season the lettuce well with plenty of salt and pepper, and drizzle over a little olive oil. Cover with foil and bake in the oven at 200C (180C fan)/Gas Mark 6 for 20 minutes.

Serve immediately with the chicken and some potatoes of your choice.

promotion and maybe a challenge for the title.

The star of the season so far has been the ever reliable Ian Bradwell with the bat, whilst all of the bowlers have shared the spoils with the ball. Off the pitch there was some disappointing news to report when it was discovered that the pavilion had been broken into and then mindlessly vandalised. Fortunately, the selfless dedication of groundsman David "Lardy" Lawrence meant order was soon restored.

Saturday home fixtures for July are on the 7th v Over Wallop (another derby!) & 21st v Andover. Why not pop up to Bengers Lane and enjoy an afternoon of cricket.

Fingers crossed for an improvement in the weather!
